

Clark Forklift

Currently, there are no less than 350,000 Clark forklifts performing globally, and upwards of 250,000 operating in North America alone. With five major lines across the globe, Clark is proud to be one of the most expansive organizations in the industry. Heavy duty vehicles ranging from 1,500lb to 18,000lb capacities, dual fuel, petrol, LPG, hand powered lift trucks, narrow-aisle stackers and electric riders are some of their specialties.

Clark Totalift, covers more than 120,000 specialized parts fabricated for 20 exclusive models of forklifts and automated equipment. Your local Clark Dealer is your complete source for availability of all your components needs offered by Clark Totalift.

Clark has a exceptional Parts Supply team. The parts warehouses are conveniently stationed in Changwon, South Korea and Louisville, Kentucky to make certain exceptional service to both their buyers and their dealers. For over 90 years, Clark has exceeded industry standards, being one of the most actively advancing companies. Motivated to supply the highest level of value and service to our clients, Clark remains on the cutting edge when it comes to improving output and benefiting performance.

Clark Totalift has a very amazing international support network. With over 550 locations worldwide, seller representation in over 80 countries and 230 locations in North America, their high level of dedication to their customers predominates the material handling market.

Clark proudly remains an progressive leader of the material handling industry, pioneering protection features such as the worker restraint system. This exceptional dedication to safety is now a customary feature on every lift truck.

Clark's continual effort to boast the No. 1 Quality system in the industry is proudly demonstrated by ISO 9001 - Clark, is the first forklift manufacturer across the world to be certified with the globally approved quality standard ISO 9001 for all of their production facilities. Also, the ISO 14001 Environmental Stewardship System certificate was awarded to Clark's Korean facility in 2001. This paramount achievement allows Clark to be prepared for any environmental limitations, thus placing them in a dominant industry position.

Lean Production

Clark has preferred the particularly economical and advantageous system of "Lean Production" for its assembly plants and use of resources. This structure was developed to acknowledge the most efficient method of production plant stewardship and ensuring maximum efficiency. Clark has concluded this transition of its Korean facility. COPS which is Clark Optimized Production System, similarly focuses on quality of product and services and production efficiencies.

Engine Design

By working collectively, Clark's product suppliers and engineers communicate towards enhancing product efficiency while minimizing expenses. The contemporary value engineering program combines innovative product development and provides superior consumer support and service within the industry.
